

## Google Cloud Quickstart Guide for Startups

About Google Cloud	Google Cloud Platform frees you from the overhead of managing infrastructure, provisioning servers and configuring networks. To let innovators innovate and let coders, well, just code. A global fiber network, connecting you to the world, analytics that crunch petabytes in minutes, No-ops services that just scale, process Terabytes in Minutes, managed Deep Learning services etc are some of the key differentiators. For more information please refer <a href="https://cloud.google.com/why-google/">https://cloud.google.com/why-google/</a> & <a href="https://cloud.google.com/pricing/innovation">https://cloud.google.com/pricing/innovation</a>
Products available in Google Cloud Platform	We have a huge breadth of products ranging from storage and compute, to data tools and managed machine learning. For complete list of products we have today please refer <a href="https://cloud.google.com/products/">https://cloud.google.com/products/</a>
Architecture guides or blueprints	Please refer <a href="https://cloud.google.com/solutions/">https://cloud.google.com/solutions/</a> for tutorials, architecture guides etc. that can help you learn to build on Google Cloud Platform
